ADDENDUM TO JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 3 September 1971

STATINTL

1. (Internal Use Only - LLM) [] of DCS, called to advise us of a request by the Government Accounting Office for an NIS in connection with an audit of an AID project in Ghana. I recommended to [] that the request be submitted to the DDI but told him that from our standpoint release of Agency material to the Government Accounting Office, which is an investigating arm of the Congress, involves a delicate question of precedent. Mr. Wattles, Assistant Deputy Director for Support, was advised of the pending GAO request.

STATINTL

2. (Internal Use Only - LLM) On referral from [] STAT
USIB, received a call from Mr. Hugh Wolff, Library of Congress, who said he was doing a paper on the intelligence community and was having difficulty in locating specific statutes, executive orders, or other basis for (a) USIB and its subcommittee structure, and (b) the role of the Director as principal intelligence adviser for the Government. I told Mr. Wolff I thought we could work up some material for him to answer his questions and that we would be back in touch. In the interest of keeping this in normal liaison channels, I advised [] CIA Librarian, of this call and he said he would follow through. STATINTL
